

## **Envision Unlimited**

### **COVID-19 Guidelines**

Envision Unlimited has implemented the following procedures to respond to the current COVID-19 Emergency. These procedures are based on guidelines from the public health agencies and are subject to change as new information becomes available. Envision Unlimited has implemented the following procedures to respond to the current COVID-19 Emergency. These procedures are based on guidelines from the CDC and Illinois Department of Human Services and are subject to change as new information becomes available.

I. The following **prevention procedures** are in place until further notice:

1. All locations will increase the frequency of cleaning and sanitation using a disinfectant approved to kill the human coronavirus. A solution of 1/3 cup of bleach to 1 gallon of water is effective for sanitizing hard surfaces. A commercial disinfectant spray is recommended for porous surfaces such as carpets or upholstery. All surfaces that are touched should be included in the cleaning process, including light switches, remotes, keyboards, etc. (See attached list of cleaning products.)
2. All clients and staff are expected to wash hands or other body parts that touch others or surfaces with soap and water for at least 20 seconds. Alcohol-based hand sanitizers are also to be used as needed.
3. All clients and staff will receive on-going education in proper hand-washing procedures and signage will be available at all facilities.
4. Clients in our homes will shelter in place until further notice.
5. Visitors are not allowed at any Envision Unlimited facilities.
6. Families are refraining from taking clients on home visits until further notice.
7. Community Day Services sites are closed until at least April 30, 2020.
8. 24-hour IDD CILA clients will receive day programming have the opportunity to engage in special activities during the day at their CILA location.
9. Two weeks' worth of supplies will be kept at all locations based on availability and will include food, paper goods, cleaning supplies, disposable gloves and other household products. Disposable masks, other PPE and instructions for

their use will also be kept at all locations only for use in the event of an exposure on-site. Delivery of groceries and household items will be used when available.

10. Client temperatures will be taken twice per day in all 24-hour CILAs and we will call the doctor for any temperature above 100.4 degrees.
11. Staff are taking their temperature before starting their shift and will notify their supervisor if their temperature is above 100.4 degrees. They will be sent home until they are free from symptoms (fever, cough, shortness of breath) for at least 24 hours, without the use of fever-reducing or other symptom-altering medicines (e.g. cough suppressants).
12. All clients and staff must notify a supervisor if they become aware that they came in contact with someone who has tested positive for COVID-19.
13. Staff who are able to work remotely must do so. Resources for remote access are available from the IT Department.
14. Staff are to avoid all non-essential travel. Staff who have traveled outside the country in the last 14 days or who plan to do so must inform their supervisor.

II. The following procedures will be followed if staff or clients experience symptoms:

1. According to the Centers for Disease Control and Prevention (CDC), symptoms of COVID-19 include fever, shortness of breath and cough. Other secondary respiratory symptoms may also be present. If a staff or client experiences any of these symptoms, they should seek medical treatment and remain home until they are free from symptoms (fever, cough, shortness of breath) for at least 72 hours, without the use of fever-reducing or other symptom-altering medicines (e.g. cough suppressants). Each person's situation will be reviewed on an individual basis,

III. The following procedures will be followed if a staff or client tests positive for COVID-19:

1. Staff:
  - Staff will immediately be sent home and will not be permitted to return to work until cleared by a physician.
  - The designated agency staff will contact the local health department.
  - The agency response team will meet to determine any additional action needed regarding potential quarantines.
2. Residential Clients:

- Residential clients will be supported in their own bedroom or space as best as possible and use a separate bathroom from everyone else, unless directed by a medical professional to relocate to a hospital or other center. Uninfected roommates should be moved to a different room.
  - Medical authorities will be notified immediately.
  - If applicable, partner agencies who may have had contact with the individual will be notified.
  - Clients in the affected home will be quarantined in the home pending further medical advice.
  - The designated agency staff will contact the local health department.
- IV. Two Community Day Centers will be prepared as an emergency shelter, including bedding, household needs, medical supplies, personal protective equipment, food, hygiene and other items to meet the needs of temporary living.

**Revised as of April 1, 2020**

**Patients with COVID-19 have experienced mild to severe respiratory illness.**

**Symptoms\* can include**

**FEVER**

**COUGH**

**\*Symptoms may appear 2-14 days after exposure.**

**Seek medical advice if you develop symptoms, and have been in close contact with a person known to have COVID-19 or if you live in or have recently been in an area with ongoing spread of COVID-19.**

**SHORTNESS OF BREATH**

## Novel Coronavirus (COVID-19)—Fighting Products<sup>1</sup>

The American Chemistry Council's (ACC) Center for Biocide Chemistries (CBC) has compiled a list of products that have been pre-approved by the U.S. Environmental Protection Agency (EPA) for use against emerging enveloped viral pathogens and can be used during the 2019 novel coronavirus (COVID-19) outbreak. This product list is not exhaustive but can be used by business owners, health professionals, and the public to identify products suitable for use during the COVID-19.

The information in this document is being provided as a public service. All efforts have been made to ensure the information is accurate, but ACC and CBC make no representations or warranties as to the completeness or accuracy of the information. ACC, CBC, and the product manufacturers listed in this document reserve the right to change, delete, or otherwise modify the information without any prior notice. Persons receiving this information must make their own determination as to a product's suitability prior to use based on the product labeling. ACC and CBC do not guarantee or warrant the standard of any product referenced or imply approval of the product to the exclusion of others that may be available. All products listed are registered for labeled uses in accordance with federal laws and regulations as of the date this document is being made available. State regulations may vary. In no event will ACC or CBC be responsible for damages of any nature whatsoever resulting from the use of or reliance upon products to which the information refers.

**Note:** The CBC cannot make a determination of the effectiveness of a product in fighting pathogens like COVID-19. For questions related to the effectiveness of any product not listed below, please contact the manufacturer directly.

**For use of the product,** please contact the company/distributor to confirm use directions, or consult the EPA approved label at <https://www.epa.gov/pesticide-labels/pesticide-product-label-system-ppls-more-information>.

As a public service, CBC is maintaining this list of antimicrobials that have proven to be effective against stronger pathogens, such as norovirus or ebola. By publishing and maintaining this open list, CBC relieves federal, state, and local health officials' resources in order to focus on other aspects of the important effort to limit spread of this new disease. Listing is voluntary and compliance with EPA's "emerging viral pathogen" guidance for antimicrobial products is verified by CBC. CBC will be working with federal and state officials to disseminate the list and make it accessible to all those who need to be in the know.

<sup>i</sup> To include a product on CBC's list of Coronavirus-Fighting Products, registrants of the products should please contact Ms. Komal K. Jain at [komal\\_jain@americanchemistry.com](mailto:komal_jain@americanchemistry.com). Please also refer to CBC's Frequently Asked Questions guidance at <https://biocides.americanchemistry.com/CBCs-List-of-COVID-19-Fighting-Products-FAQs.html>
